International safety research: benefits and challenges

- **Strategy for 2019-2023** : deploy a scientific strategy and conduct high-level research, promoting the emergence of partnerships, enhancing the Institute's experimental platforms, strengthening links with the academic sector

Facing the challenge of shut down research facilities like Halden / NEA-CIP CABRI

Benefit of having strategic guidance through discussions in networks like ETSO

Euratom program H2020 allows to pool resources (ex. ELSMOR - Towards European Licensing of Small Modular Reactor)

THANK YOU FOR YOUR ATTENTION
